

*Providing a sleek and modern super high gloss finish, Zenolite® is a simple, easy and cost effective way to give your reception, foyer, kitchen, bathroom, recreation area, office or boardroom, the designer look.*

Whether as a feature wall, a new kitchen splashback, fascias for doors, drawers and cupboards or even office partitioning, Zenolite can bring to life any vertical surface - with a splash of color.

Zenolite enables both on-site cutting and bending, eliminating the need to pre-order toughened glass panels weeks in advance. Zenolite panels can be fabricated by the installer on-site, allowing last minute changes to be made e.g. electrical point cut-outs.

*No - it's not a dream!*
